

Best Practices

***Title of the Practice: Student Centric Teaching and Holistic development of girls by providing multiple opportunities.**

1. Objectives of the practice:

- The college offers a variety of activities in addition to a top-notch education with the goal of fostering the complete development of each student.
- To enhance the learning environment through infrastructure improvements.
- To broaden their knowledge in a simple and wholesome manner which is beneficial and easier to understand for them.
- To cultivate relevant skills in students.
- To recognize and celebrate women's social, economic, cultural, and political accomplishments.

2. Vision: Facilitates the development of the learners' interdisciplinary personalities.

3. The Context

By keeping the vision of ensuring multidisciplinary personality development of the learners, we have started two new more courses of diploma in Nanny care and Nutrition and M.Sc. Computer Science.

- Courses focusing on **vocational skills**, such B.Sc. and M.Sc. in Fashion Design, B.Voc. in Beauty and Wellness, BA in Home Science, Fine Arts, Cosmetology, and Physical Education, have commenced.

The institution has updated its beauty and wellness, cosmetology, well-equipped fashion design, and home science labs, as well as its fine arts and gymnasium, in order to foster the aforementioned abilities.

- **Focusing on communication skills**, institution also offers a Language Lab that helps students improve their writing and reading abilities.
- **Entrepreneurship development:** The institution plays a critical role in igniting young minds to create innovation, build employable skills, and set the groundwork for entrepreneurship.
- **Ethical and Human Value Development:** The institution's primary goal is the development of human and ethical values. Committees such as Joint Hands Club, NSS, NCC, Red Ribbon Club, EBSB and Rotaract Club encourage students to visit old age homes, orphanages, and villages. This is also implemented within the organization by giving Class IV employees financial support.
- **Educational trips and excursions** also assist students by increasing their exposure to and practical knowledge.
- **Outreach Program:** Promote student awareness through organizing NSS and NCC rallies, tree planting, campus cleanliness drives, lectures on voting and combating female foeticide, while also visiting rural areas and actively participating in adopted village initiatives. Legal awareness and Intellectual Property Rights (IPR) are integral parts of the curriculum.
- **Leadership development** is encouraged through programs like the Cadet Corps (CA), National Cadet Corps (NCC), and National Service Scheme (NSS).
- **Digital literacy** is emphasized to ensure students are well-versed in modern technology.
- Awareness campaigns on various important days are regularly organized.
- Concessions on fees are offered to help students with their finances.
- We celebrate academic accomplishments to inspire students.
- During the Youth Festival, students showcase their abilities and talents by competing for numerous prizes and awards.

4. Problems:

Inadequate grants hinder the smooth functioning of certain programs.
Scholarship opportunities sometimes lapse due to delays.

5. Community Development Services:

- As part of its active community development efforts, NSS offers guidance to schools and villages. To encourage wellbeing, programs on hygienic eating and personal cleanliness are arranged. Tree plantation was done in Village and surrounding areas.
- Both students and teachers donate funds and essential items to provide support for individuals in old age homes.
- Regular tree plantation campaigns are carried out to improve the sustainability of the environment.
- The Join Hands Club makes a substantial contribution to these community programs and services.

Title of the Practice: Save Energy*

Objective:

Emphasizing the importance of saving energy for environmental sustainability and reducing utility costs.

Context:

Energy conservation is crucial for sustainability, environmental preservation, and cost efficiency. The college campus prioritizes energy conservation, with active participation from both students and staff.

Practice:

Energy conservation benefits both the environment and society.

1. Switch to LED Bulbs: LED bulbs use less energy and last longer than traditional incandescent bulbs.
2. Unplug Devices: Prevent "phantom" energy consumption by unplugging chargers, electronics, and appliances when not in use.
3. Energy-Efficient Appliances: Invest in appliances with the ENERGY STAR label for improved energy efficiency.
4. Regular Maintenance: Ensure heating and cooling systems are well-maintained with regular check-ups.
5. Natural Light by using Solar Cooker: Utilize natural Sun light during the day to reduce the need for artificial lighting.
6. Energy-Efficient Office Equipment: Choose energy-efficient computers, printers, and other office equipment.
